Objective

Eager to learn, grow and contribute.

Skills

- Programming Languages: C# | Database: SQL Server
- Web Technologies: HTML | Application Development: MVC

Internship [March 2024 – January 2025]

Completed an 11-month “Work Experience Program” covering C#, .NET, ASP.NET MVC at NapaSoft, gaining hands-on training in .NET technologies.

Experience [April 2025 - Present]

Web Developer | Anmoul Infomatics

Working as a Junior Web Developer at Anmoul Infomatics. My main responsibility is developing the **Tata Steel E-Suraksha** website, focusing on backend development and implementing business logic according to client requirements.

Projects

- **Leave Management System (MVC, C# and SQL)**

1. Developed a system with CRUD operations for managing employee leaves, including an approval flow for managers.
2. Designed a clean and user-friendly interface with a help page for guidance.
3. Focused on easy management of employee leave records in a SQL database.
4. Used Ajax and JQuery to send data and bootstrap for badges
5. Used Mvc 5 where Migration is used to develop the tables .
6. Implemented Roll Back to ensure data integrity during errors.

- **Mech Master Garage (MVC, C# and SQL)**

7. Developed a Garage Management System featuring CRUD operations to list, store, search, and delete customer details from a SQL database.
8. Easier way to print invoices or generate PDFs for better customer interaction.
9. Paid attention to simple and clean user experience.

Education

- B. Sc (IT) (2019–2022) – Jamshedpur Cooperative College, 7.98 CGPA
- Intermediate in Science (2017–2019) – Shiksha Niketan School, 70%
- Matriculation (2017) – Shiksha Niketan School, 9.8 CGPA
